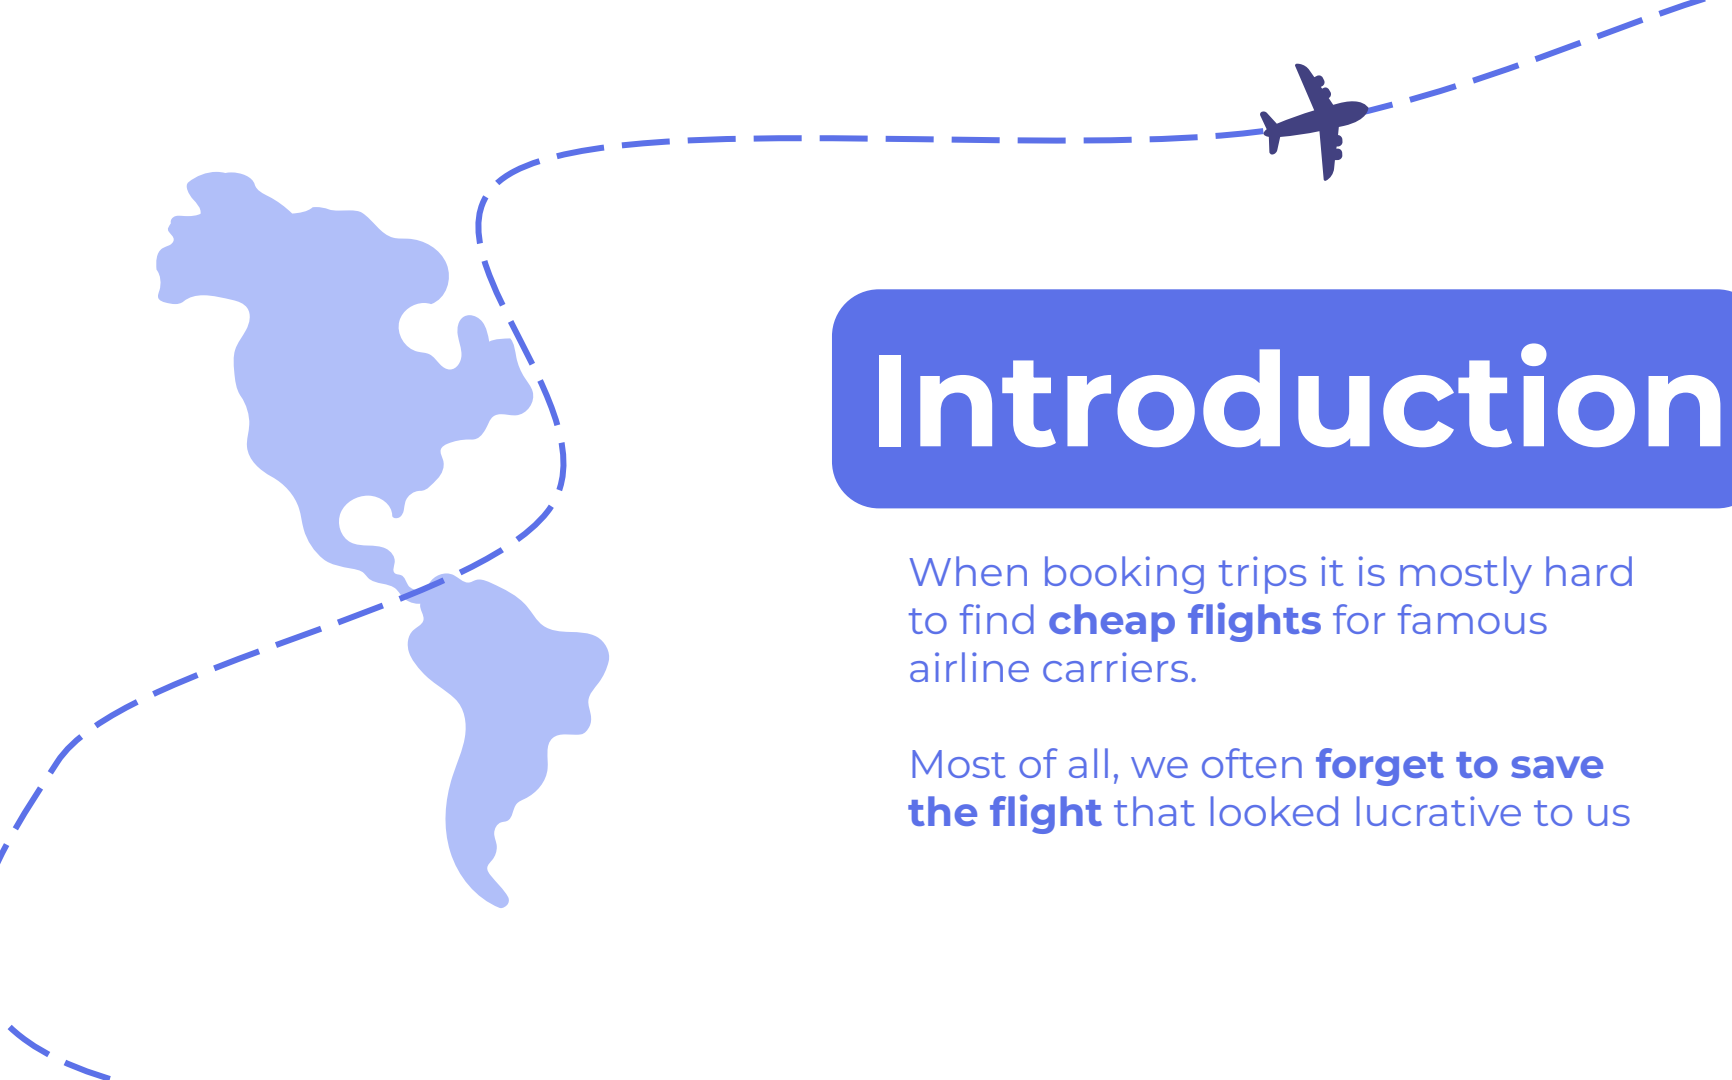
The list of the features and
the ideas behind them



Introduction

When booking trips it is mostly hard to find **cheap flights** for famous airline carriers.

Most of all, we often **forget to save the flight** that looked lucrative to us

Introducing

Budget Airways

The application to help find you the **cheapest flights** and help you **bookmark them** for your next trip

List of Features

- **Authentication**: Sign In / Sign Up
- **Flight searcher**: search flights from upto 50 cities and up to 100's of airlines
- **Flight booking redirection**: instantly redirect to the website offering the deal
- **Flight Watchlist**: save the flight that caught your eyes so you can never lose it
